

# Sample Lesson #1

## Five Senses

You have five senses. The five senses are **hearing, sight, smell, taste,** and **touch**. You use your senses to observe and learn about the world around you. You can look at a flower to see its color and shape. You can touch it.

Does it feel rough or smooth? What smell does the flower have?

1. How many senses do you have? \_\_\_\_\_

2. Sight, hearing, and smell are three senses.  
Circle the other **two** senses.

taste      shape      color      touch

3. For which sense would you use your ears?

hearing      touch      sight      smell

4. For which sense do you use your eyes?

smell      hearing      touch      sight

5. Which sense would you use to feel something?

taste    smell    hearing    touch

6 – 8. You use different body parts for different senses. Label each body part with the correct sense. One has been done for you.

smell    taste    sight    touch
